## CREATIVE RECOMMENDATIONS

- Simplicity is the best strategy for an effective message.
- Text should be large, bright and good contrast from the background.
- Avoid text over busy background.
- Avoid very thin text on bright backgrounds.
- 5 words per 5 seconds is a good system to follow. Small fonts or lots of text is ineffective.
- Test your creative: <http://www.neo-oooh.com/en/be-creative>
- Animations are more effective than static. (We provide in-house production at a reduced rate for advertisers)
